## About Prescribing Analytics

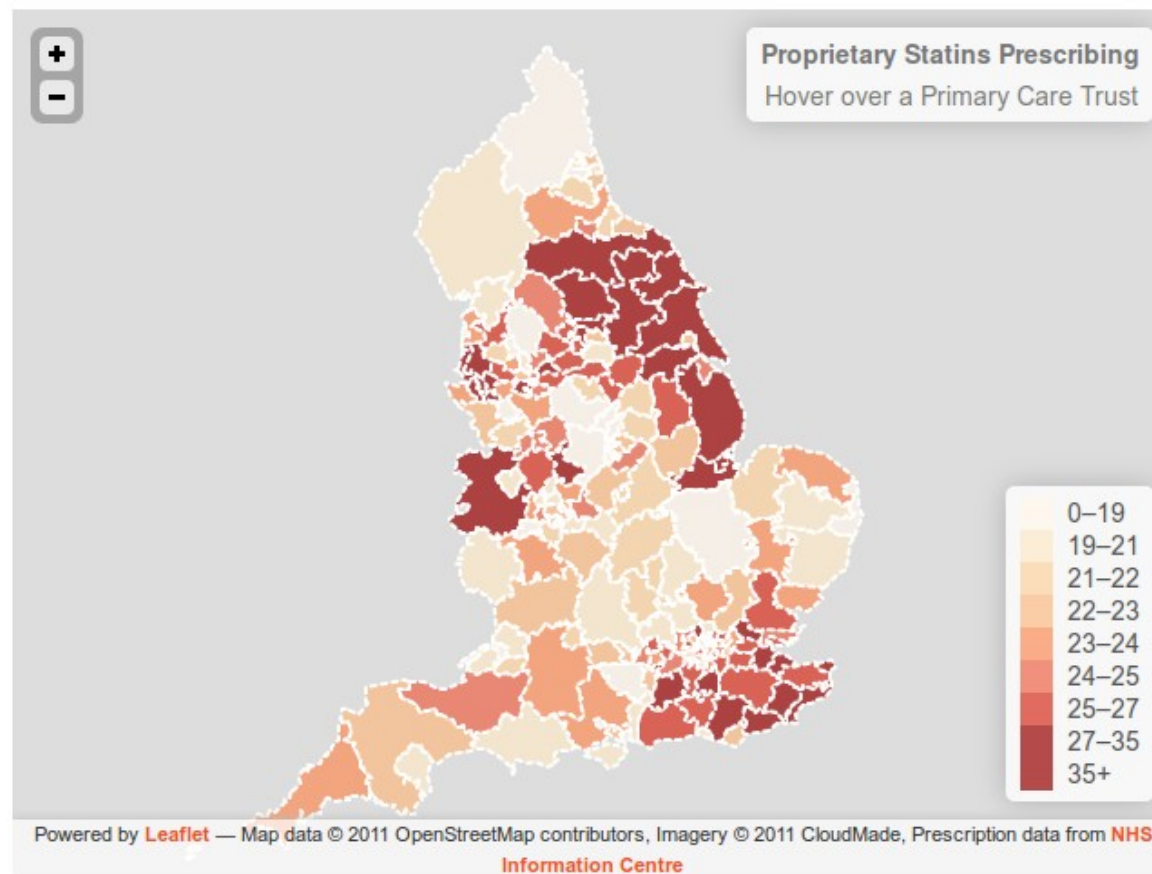

Prescribing Analytics is a joint venture of a group of UK technologists and NHS doctors, who believe in the power of data and technology to help the NHS.

Drop us an email at [info@prescribinganalytics.com](mailto:info@prescribinganalytics.com)

# NHS efficiency savings: the role of prescribing analytics

The NHS has been challenged to make £20 billion in “efficiency savings” by 2015 (1). £10 billion a year are spent by the NHS on essential drugs. Often, there’s a choice between a cheap “generic” medication, or an expensive “branded” one. Branded drugs can cost over ten times as much, for the same therapeutic benefit. “Prescribing Advisors” in the NHS, with the support of NICE, encourage doctors to use the most cost effective treatments. We have analysed exactly how much is spent on expensive “branded” medicines, for one class of drugs, namely statins, in England.

# Hagræðingarhópur birtir ekki tillögur frá almenningi

Fengu 570 tillögur sendar um hvernig best væri að hagræða

Ritstjórn DV [ritstjorn@dv.is](mailto:ritstjorn@dv.is)

11:16 · 7. október 2013

Tillögur hagræðingarhóps ríkisstjórnarinnar verða ekki gerðar opinberar. Hópnum bárust 570 tillögur frá almenningi. Þetta kemur fram á vefnum [Spyr.is](http://Spyr.is), en þar svaraði Ásmundur Einar Daðason spurningum lesenda fyrir hönd hópsins. Hópurinn starfaði undir stjórn Ásmundar, en í honum sitja einnig Guðlaugur Þór Þórðarson, Vigdís Hauksdóttir og Unnur Brá Konráðsdóttir.

Líkt og áður hefur komið fram var hópnum meðal annars ætlað að leggja til aðgerðir til þess að hagræða, forgangsraða og auka skilvirkni í rekstri stofnana ríkisins. Hann auglýsti eftir tillögum frá almenningi og ekki stóð á svörum.

Á vef [Spyr](http://Spyr) segir Ásmundur þó að ekki standi til að gera tillögurnar opinberar, það er þær sem bárust frá almenningi.

„Talið var mikilvægt að þátttakendur nyttu nafnleyndar, enda er víst að ella hefðu margir veigrað sér við að senda inn ábendingar, t.d. varðandi úmiclept sem betur
